EXPERIENCE

Full Stack Developer Intern at Isnartech | [ReactJS](#), [JavaScript](#), [MySQL](#)

6 months

School ERP Web Application

- * Built a Web App Portal for School ERP in React JS.
- * Developed numerous APIs that interface with the web developer's MySQL database.
- * Used Redux, React Navigation, and many UI libraries for making the app user friendly.
- * The app has been released and is compatible with both iOS and Android devices.

Automatic Attendance and Behaviour monitoring

- * Developed a complete website with frontend and backend in JavaScript and ReactJS.
- * Integrated with the AI Team for capturing the frame and behaviour of students.
- * There are four modules: Student, Teacher, Staff, and Admin, as well as Login with OTP, Registration with Approval, and a Dashboard with 15 functions for everyone.

PROJECTS

Chat Application

- * Developed a real-time chat application in ReactJS and NodeJS using socket.io.
- * There are features for both single and group chats.
- * Conversations are stored in a MongoDB database, and group members can add new users with user access control.
- * Login and registration with the help of OTP token, other users can be searchable.

Automatic Attendance and Behaviour monitoring

- * Developed a complete website with frontend and backend in JavaScript and PHP.
- * Integrated with the AI Team for capturing the frame and behaviour of students.
- * There are four modules: Student, Teacher, Staff, and Admin, as well as Login with OTP, Registration with Approval, and a Dashboard with 15 functions for everyone.
